

LDA 91 Mounty®

Lumesa Drilling Attachment

INOX

Portable drill feed mounted on excavator; in the standard version it can be aligned at any angle thanks due to tilt and swivel element. Like the standard version, it can be used with a down-the-hole hammer, top hammer or core drill.

Can be easily disassembled and used as a portable drilling unit.

Technical specifications

INOX

LDA 91 Mounty®

Specifications

Operating weight excavator t		> 6
Weight ¹	kg	550
Oil requirement	l/min / bar	60 / 200
Feed/Pullback force	kN	20 / 40
Torque max.	daNm	500
Feed stroke	mm	on request
Dimensions (LxBxH)	mm	on request
Drill feed profile	BL	91 / 92
Slew	Degree	360
Tilt	Degree	±90
Clamping device		25 – 146
Top hammer	daNm	150
Rotary head	daNm	on request
Double head	daNm	

Deliverable with

Hydraulic control panel	inclusive
Radio remote control	optional
Radio remote control with display	optional
Anti-jamming automatic	optional
Adjustable percussion mechanism	inclusive
Thread synchronization	optional
Tilt 0 – 90°	
Breaking device	
Drill guide	optional
Powerbox (control voltage)	optional
Lubrication pump drill drive	optional
Rotary union	
Walking foot with swamp plate	optional
Dust collector	optional
Rod handler	
Cable winch	

Drilling methods

	Application ideal	Application conditionally possible				
Blast hole / Rock drilling	ø mm	33	45	57	76	89
KSB® Anchor drilling	ø anchor	R32	R38	R51	T76	T114
Rotary-/Down-the-hole (DTH) drilling	ø mm	70	90	140	178	250
Cased drilling	ø mm	114	139	168	178	219
Core drilling	ø mm	100	131	146	200	254
Injection port	inch			3/8"

LDA Excavator mounted drill feeds

Lumesa Drilling Attachment

Based on the standard system, **Lumesa** manufactures customized drilling attachments for every application. Using a checklist, precise customer briefing and professional advice, an exact requirement profile is created, which serves as the basis for the construction of the drilling attachment. The high level of flexibility enables efficient, individual system solutions for the respective needs and requirements on the construction site. No change in the excavator hydraulics is necessary. All drilling attachments are designed for operation with guards in accordance with DIN EN 16228-1.
